ALUMINIUM HEAT EXCHANGERS A SERIES

POTENZA TERMICA
THERMAL CAPACITY
KÜHLEISTUNG

from 0,80 kW to 100,00 kW

A SERIES

This is an extensive range of highly industrialised standard aluminium heat exchangers which offers great scope for customisation and adaptation to all applications on the market.

Available from stock for fast delivery.

All heat exchangers are available with different types of fan drives:

- Electric DC 12V/24V;
- Electric HUB-FAN DC 12V/24V with integrated Soft start electronic control. A unique, innovative product which increases energy saving and noise control and offers important safety features;
- Electric AC 230V/400V;
- Hydraulic motors;

Due to their high level of design flexibility and innovative technical solutions, the A Series heat exchangers can be equipped with:

- An integrated VNR pressure bypass valve;
- An integrated VT thermostatic bypass valve;
- Anti-clog fins for heavy duty applications

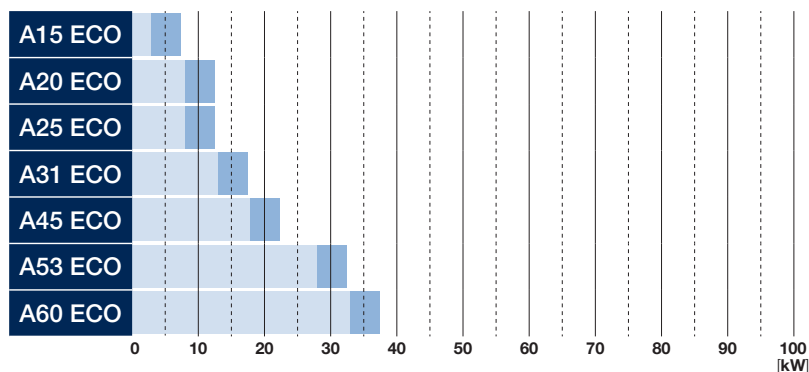

Mounting feet, thermostats and temperature sensors are also available as accessories.

ALUMINIUM HEAT EXCHANGERS ECO SERIES

POTENZA TERMICA
THERMAL CAPACITY
KÜHLEISTUNG

from 0,80 kW to 35,00 kW

NEW SERIES

ECO SERIES

This is an extensive range of highly industrialised standard aluminium heat exchangers.

Available from stock for fast delivery.

The ECO series follows an optimised production process with large batches so that our customers are more competitive in the market place.

All heat exchangers are available with different types of fan drives:

- Electric DC 12V/24V;
- Electric HUB-FAN DC 12V/24V with integrated Soft start electronic control. A unique, innovative product which increases energy saving and noise control and offers important safety features;
- Electric AC 230V/400V;
- Hydraulic motors;

Mounting feet, thermostats and temperature sensors are also available as accessories.
